SUBJECT: GERMAN FEDERAL PROSECUTORS REQUEST INFORMATION TO  
AID EXPORT CONTROL CASES

Classified By: Global Affairs Unit Chief Don L. Brown, for reasons 1.4  
(b) and (d).

¶1. (SBU) This is an action request. Please see paragraph 5.

¶2. (SBU) During a meeting between German federal  
prosecutors, Econoffs and LES Legal Specialist, German  
federal prosecutor Wolfgang Siegmund raised two questions  
related to German export control cases.

¶3. (S) Siegmund stated that his office is concerned that  
motors for unmanned aerial vehicles (UAV's) manufactured in  
Germany by the firm Limbach may have been illegally diverted  
to Iran. He requested that, if the U.S. were in possession  
of any downed UAV's with Limbach components, the GOG be  
allowed access to them for possible use in a criminal case  
against Limbach.

¶4. (S) Next, Siegmund inquired about Hong Kong-based firm,  
Siccas. He asserted that Siccas has been involved in  
providing solid fuel missile exhaust jet vanes or their  
components to Iran. While Siccas is "known in Germany"  
(indicating they were a firm of concern to the prosecutors  
and export control authorities) and subject to export  
controls, Siegmund asked why Siccas did not appear on the  
Bureau of Industrial Security's "denied person" list.

¶5. (S) Post would welcome any guidance that we may use to  
respond to these inquiries.
